SKYRIM

Hey, you, you're finally awake.

You were trying to cross the border, right?

Walked right into that Imperial ambush. Same as us.

And that thief over there...

Damn you storm cloaks. Skyrim was fine until you came along.

Empire was nice and lazy.

If they hadn't been looking for you, I could've stolen that horse and been halfway to Hammerfell.

You there! You and me, we shouldn't be here.

It's these Stormcloaks the Empire wants.

We're all brothers and sisters in binds now, thief.

Shut up back there!

 You're speaking to Ulfric Stormcloak, the true high-king!
 Ulfric? The Jarl of Windhelm?
 You're the leader of the rebellion.
 But if they've captured you...Oh gods, where are they taking us?!
 I don't know where were going, but Sovngarde awaits...
 No this can't be happening! This isn't happening!

 Funny, when I was a boy, Imperial walls and towers used to make me feel so safe.
 Who are they, daddy? Where are they going?
 You need to go inside, little cub
 Why? I wanna watch the soldiers.
 Inside the house! Now!
 Get these prisoners out of the carts! Move it!
 Why are we stopping?
 Why do you think? End of the line...
 Let's go. Shouldn't keep the gods waiting for us...
 No wait! We're not rebels!
 Face your death with some courage, thief.
 You've got to tell them! We weren't with you! This is a mistake!
 Step toward the block when we call your name! One at a time!
 Empire loves their damn lists.

And they'll destroy us all to make it happen!*Destroy us all!*

A call against TyrannyI'm very glad to see the crowd here,
because this is very important. Not just for me, but for us
all. This is about the one who's been promising peace to
us, and I oppose him.

I don't oppose peace, I oppose the kind of peace he is
tempting you all with, a false peace. One without the will
for opposition, rather than one without need for conflict.
That is the kind of peace where evil can appear to be
good.

Evil doesn't have to carry a weapon to be evil. Evil can
want a world without fighting. Evil can grow inside the
apparently pure. It must be fought. We are all people, and
we need each other just as you all need each other. He is
trying to split us off from the world so he can control
you.

It is not too late to stand up, and stop him from bringing
malice into our hearts.

Against autocratic propagandaThe Empire of Human Darkness is pretending yet again that unelected rulers could never be corrupted, stupid or standing in the way of peace and security. Particularly funny is the assumption that the selection process of (or those selecting) the "exceptionally gifted and intelligent individuals" could never be corrupted or simply fail.

And the Spirit of Change hovered over the segments flanking the syllabic nucleus ... and Change said "Let the consonants guarding the vowel to the left and right contribute some of their phonetic features to the vowel in the name of selfless intersegmental love, even if the consonants thereby be themselves diminished and lose some of their own substance. For their decay or loss will be the sacrifice through which Tone will be brought into the world, that linguists in some future time may rejoice ... And it was so. I find it kinda funny, I find it kinda sad,

are the best I've ever had.
And I find it hard to tell you; I find it hard to take.
When people run in circles, it's a very, very mad world.
Mad world.

Children waiting for the day they feel good.
Happy birthday!

Made to feel the way that every child should.
Sit and listen.
Sit and listen.

I went to school, and I was very nervous.
No one knew me.
No one knew me.

Hello, teacher, tell me what's my lesson.
Look right through me.
Look right through me.

And I find it kinda funny; I find it kinda sad,
that the dreams in which I'm dying are the best I've ever

[Psalms 118:24](#)This is the day the Lord has made, let us rejoice and be glad in it.

[Your Silence](#)I love your silence, for in it are all languages at once.

[Delirium](#)I run for I don't know how long. Hours, maybe, or days. Alex told me to run. So I run. You have to understand. I am no one special. I am just a single girl. I am five feet two inches tall and I am in-between in every way. But I have a secret. You can build walls all the way to the sky and I will find a way to fly above them. You can try to pin me down with a hundred thousand arms, but I will find a way to resist. And there are many of us out there, more than you think. People who refuse to stop believing. People who refuse to come to earth. People who love in a world without walls, people who love into hate, into refusal, against hope, and without fear. I love you. Remember. They cannot take it.

[Bringing stories to life](#)The unread story is not a story; it is little black marks on wood pulp. The reader, reading it, makes it live: a live thing, a story.

Living in the valleyIt's hot, it's really hot there. We lived around there in the winter. When it was summer, we went up there in the mountains. Long ago then, we used to have burros. We went on them then, to the mountains. We stayed there in the summer. At that time we picked pine-nuts thereabouts, preparing pine-nuts and eating pine-nuts. We used to pick something else, a kind of grass seed. And we also ate something that is called "prickly pear," which is a sweet-tasting cactus. It's really cool up there in the mountains. We used to be there in the summertime.

In the year negative a billion, Japan might not have been here

In the year negative forty thousand, it was here, and you could walk to it, and some people walked to it

Then it got warmer, some icebergs melted, it became an island, and now there's lots of trees

Because it's warmer

So now there's people on the island; they're basically sort of hanging out in between the mountains eating nuts off trees and using the latest technology

Like stones, and bowls

Ding dong, it's the outside world, and they have technology from the future

Like really good metal, and crazy rice farms

Now you can make a lot of rice really really quickly

That means if you own the farm, then you own a lot of food, which is something everybody needs to survive

So that makes you king

Rice farming and rice kingdoms spread all across the land, all the way to here

The most important kingdoms were here, here, here, here, here, here, and here

But this one was the most most important, ruled by a

heavenly superperson, or emperor for short
Knock knock, get the door, it's religion
The new prince wants everyone to try this hot new
religion from Baekje
"Please try this religion," he said
"No," said everybody
"Try it," he said
"no," said everybody again, quieter this time
And so the religion was put into place and all the rules
that came with it
Then, the government was taken over by another clique,
and they made some reforms
Like making the government govern more, and making
the government more like China's government, which is a
government that governs more
"Hi China," they said
"Hi dipshit," said China.
"Can you call us something else, other than dipshit?" said
Japan.
"Like what?" said China.
"How about sunrise land?" said Japan.
And they stole China's alphabet and wrote a book. About
themselves!
And then they made lots of poetry and art and another
book about themselves.
Then they stopped moving the capital every time the
emperor died and kept it in one place for a while, right
here.
And they conquered the north finally, get that squared
away.
A rich hipster named Kūkai is bored with modern
Buddhism and visits China, learns a better version which
is more spiritual
Comes back, reinvents the alphabet, and causes art and
literature to be great for a long time
And the royal palace turned into such a dreamworld of
art that they really didn't give a shit about running the
country
So if you live outside the palace, how are you supposed
to protect your shit, from criminals?
Hire a samurai
Everyone started hiring samurai
Rich important people hired samurai, poor people who
could not afford to hire samurai did not hire samurai
The samurai became organized and powerful, more
powerful than the government
So they made their own military government, here
They let the emperor still be emperor, but the shogun was
actually in control
Breaking news, the Mongols have invaded China

And the five guys said: "yeah right, it's not gonna be this kid, it's gonna be one of us, 'cause we're grownups"

And it's probably gonna be this guy who happens to be way more rich and powerful than the others

A lot of people support him, but a lot of people support not supporting him

They have a fight, and he wins!

And starts a new government, right here: Edo

And he still lets the emperor dress like an emperor, and have very nice things

But don't get confused, this is the new government, and they are very strict

So strict they close the country: no one can leave, and no one can come in

Except for the Dutch, if they wanna buy and sell shit, but they have to do it right here

Now that the entire country was not at war with itself, the population increased a lot

Business increased, schools were built, roads were built, everyone learned to read, books were published

There was poetry, plays, sexytimes, puppet shows, and Dutch studies: people started to study European science from books they bought from the Dutch

We're talking geography, skeletons, physics, chemistry, astronomy, and maybe even electricity

Over time, the economic and cultural prosperity began to gradually slow do-

--

Knock knock. It's the United States, with huge boats, with guns: gunboats

"Open the country. Stop having it be closed," said the United States

There was really nothing they could do, so they signed a contract that lets United States, Britain, and Russia visit Japan anytime they want

Chōshū and Satsuma hated this. "That sucks!" they said. "This sucks!"

And with almost very little outside help, they overthrew the shogunate

And somehow made the emperor the emperor again, and moved him to Edo, which they renamed eastern capital

They made a new government, which was a lot more Western

And they made a new constitution, that was... pretty Western

And a military that was... pretty Western

And do you know what else is Western? That's right, it's conquering stuff!

So what can we conquer? Korea!

Then, when the railroad was done, they downgraded to a
fuck ton
Did I say downgrade? I meant upgrade
And Japan says, "Can you maybe chill?"
And Russia says, "How 'bout maybe you chill?"
Japan is kind of scared of Russia. You'll never guess
who's also kind of scared of Russia: Great Britain!
So Japan and Great Britain make an alliance together so
they can be a little less scared of Russia
Feeling confident, Japan goes to war against Russia, but
just for a moment, and then they both get tired and stop
It's time for World War One
The world is about to have a war, because it's the 1900s,
and weapons are getting crazy, and all these empires are
excited to try them out on each other
Meanwhile, Japan has been enjoying conquering stuff
and wants more
And the next thing on their list is this part of China and
lots of tiny islands
All that stuff belongs to Germany, which just had war
declared on by Britain, because Britain was friends with
Belgium
Which was being trespassed by Germany in order to get
to France to kick France's ass because France was friends
with Russia who was getting ready to kick Austria's ass
Because Austria was getting ready to kick Serbia's ass
because someone from Serbia shot the leader of Austria's
ass
Err, actually, he shot him in the head
And Britain is currently friends with Japan, so you know
what that means
Duh: Japan should take the islands! Which they wanted
to do anyway
So they sort of called Britain on the tele to sort of let
them know, and then they did it!
And they also helped Britain here and there with some
errands and stuff
--
Now the war is over, and congratulations Japan, you
technically fought in the war which means you get to sit
at the negotiating table
With the big dudes, where they decided who owns what
And yes, Japan gets to keep all that shit they stole from
Germany!

You also get to join the post-war mega alliance "the League of Nations" whose mission statement is to try not to take over the world

--

The Great Depression is bad, and Japan's economy is now crappy, but the military is doing just fine, and it invades Manchuria

And the League of Nations is like "No don't do that if you're in the League of Nations you're not supposed to try to take over the world!"

And Japan said, "How 'bout I do anyway?" And Japan invaded more and more and more of China, and was planning to invade the entire East

You've got mail: it's from Germany, the new leader of Germany, he has a cool mustache and is trying to take over the world and needs friends

This also got forwarded to Italy. They all decided to be friends because they had so much in common.

It's time for World War Two

Germany is invading the neighbors, then they invade the neighbors' neighbors, then, the neighbors' neighbors' neighbors, who happen to be Britain, said, "Holy shit"

And the United States started helping Britain because they are good friends and started not helping Japan because their friends and our friends are not friends

Plus they're planning on invading the entire ocean!

The United States is also working on a large, very huge bomb: bigger than any other bomb, ever, just in case

But they still haven't joined the war, war looks bad on TV, and the United States is really starting to care about their image

But then Japan spits on them, in Hawaii, and challenges them to war. And they say yes!

And then Germany, as a symbol of friendship, declares war on the United States also

So the United States goes to war in Europe

And they help the gang chase Germany back into

Germany, and they also start chasing Japan back into Japan!

And they haven't used the bomb yet, and are curious to see if it works, so they drop it on Japan

--

They actually drop two

--

The United States installed a new government, inspired by the United States government, with just the right ingredients for a post-war economic miracle

And Japan starts making TVs, VCRs, automobiles, and camcorders as fast as they can, and also better than everybody else

They get rich, and the economy goes wild! But then the

Ghostbusters Theme Song by Ray Parker Jr. Ghostbusters

Jutean 21-Jun-16 20:30 Offesuumo

If there's something strange
In you neighborhood
Who you gonna call
Ghostbusters

Sahan'-no iliki
nav nanede
sinovo't na, haasin?
Offesuumo!

If there's something weird
And it don't look good
Who you gonna call
Ghostbusters

Sahan'-no ilninv
u hedojao ukel
sinovo't na, haasin?
Offesuumo!

I ain't afraid of no ghost
I ain't afraid of no ghost

Vandol ta fesumooti al!
Vandol ta fesumooti al!

If you're seeing things
Running through your head
Who can you call
Ghostbusters

Sahan'-joo na viti
to ehif nan' toofad'
sinovo't na, haasin?
Offesuumo!

An invisible man
Sleeping in your bed
Oh, who you gonna call
Ghostbusters

Saini, eeol jooonol'
mihono-l' an naned'
O, sinovo't na, haasin?
Offesuumo!

I ain't afraid of no ghost
I ain't afraid of no ghost

Vandol ta fesumooti al!
Vandol ta fesumooti al!

Who you gonna call
Ghostbusters

Sinovo't na, haasin?
Offesuumo!

If you're all alone
Pick up the phone
And call
Ghostbusters

Sahan'-no-n'-a ike
vovo sinivoti
sin'sinivoo
Offesuumot'!

I ain't afraid of no ghost
I hear it likes the girls
I ain't afraid of no ghost
Yeah yeah yeah yeah

Vandol ta fesumooti al!
Saihok'-u'u ohiat', haa?
Vandol ta fesumooti al!
hee, hee, hee, hee

Who ya gonna call

Sinivoot na, haasin?

Ghostbusters

If you've had a dose of a
Freaky ghost baby
You better call
Ghostbusters, ow!

Lemme tell ya something
Bustin' makes me feel good

I ain't afraid of no ghost
I ain't afraid of no ghost

Don't get caught alone no no

Ghostbusters

When it comes through your door
Unless you just want some more
I think you better call
Ghostbusters

Oh, who ya gonna call
Ghostbusters

Who ya gonna call
Ghostbusters

I think you better call
Ghostbusters

Who ya gonna call
Ghostbusters

I can't hear you
Who ya gonna call
Ghostbusters

Louder
Ghostbusters

Who ya gonna call
Ghostbusters

Who can ya call
Ghostbusters

Offesuumo!

Sahan'-edojo-n'

sinivoof na
Offesuumot'!

Nu'dekof ta kiovif

Fantasy is necessaryI like nonsense, it wakes up the brain cells. Fantasy is a necessary ingredient in living, it's a way of looking at life through the wrong end of a telescope. Which is what I do, and that enables you to laugh at life's realities.

Garbage powerIn painting, you have unlimited power. You have the ability to move mountains. You can bend rivers. But when I get home, the only thing I have power over is the garbage.

[King of Kings](#) The King of Kings

Who are you to question my words, human? Do you not know me? Do you not recognise my face?

My face is carved into stone and my name is written on the walls. You would have to be blind not to see that. You called me a king. But I am not just a king. Let me tell you who I am. I am the King of Kings, the mightiest of all. My kingdom stretches from the sea to the mountains and beyond the horizon, from the north to the south and from the east to the west – it is all my land, without borders. The sun, the wind, fire and water are mine to command. The day comes when I call it and the night with its stars and the moon on the night sky dare not show up until I am done. I do not drink the same water as the mortals, nor do I eat the same bread as them.

The whole world is my garden – I have created it and I rule it. The heavens envy me, and the gods stand before me humble. I am greater than the gods. Who and what are you, compared to me, human? You are dust and you will remain dust when you die, while my garden will stand for an eternity and win against the tide of time.

Yours is a house of brick and wood, mine is a palace of stone, marble and gold. You do not have the right to exist if I don't give it to you. Am I supposed to tolerate your existence? You are but a servant of mine. I am the first among kings, I am the King of Kings. Everything here belongs to me. From the smallest grain of dust to the tallest mountain, from the smallest drop of rain to the largest ocean, from a mouse in a field to an eagle high in the sky. Every dog and horse, soldier and weapon and treasure belong to me by right.

Who are you? You are nothing. And this is my garden and I am its king, the King of Kings.

[Video] We Are the World There comes a time when we heed
a certain call
When the world must come together as one
There are people dying, and it's time to lend a hand
To life, the greatest gift of all
We can't go on pretending day by day
That someone, somewhere will soon make a change
We all are part of God's great big family
And the truth, you know, love is all we need
We are the world, we are the children
We are the ones who make a brighter day, so let's start
giving
There's a choice we're making
We're saving our own lives
It's true we'll make a better day, just you and me
Send them your heart so they'll know that someone cares
And their lives will be stronger and free
As God has shown us by turning stone to bread
So we all must lend a helping hand
We are the world, we are the children
We are the ones who make a brighter day, so let's start
giving
There's a choice we're making
We're saving our own lives
It's true we'll make a better day, just you and me
When you're down and out, there seems no hope at all
But if you just believe, there's no way we can fall
Let's realize that a change can only come
When we stand together as one
We are the world, we are the children
We are the ones who make a brighter day, so let's start
giving
There's a choice we're making
We're saving our own lives
It's true we'll make a better day, just you and me

The North Wind and the Sun The North Wind and the Sun were disputing which was the stronger, when a traveler came along wrapped in a warm cloak.

They agreed that the one who first succeeded in making the traveler take his cloak off should be considered stronger than the other.

Then the North Wind blew as hard as he could, but the more he blew the more closely did the traveler fold his cloak around him;

and at last the North Wind gave up the attempt. Then the Sun shined out warmly, and immediately the traveler took off his cloak.

And so the North Wind was obliged to confess that the Sun was the stronger of the two.

Now there is nothing that they may have in mind to do that will be impossible for them. Come! Let us go down there and confuse their language in order that they may not understand one another's language." So Yahweh scattered them from there over the entire face of the earth, and they gradually left off building the city. That is why it was named Babel, because there Yahweh confused the language of all the earth, and Yahweh scattered them from there over the entire face of the earth.

The Nightwatcher's VowHear my words, and bear witness to my vow. Night gathers, and now my watch begins. It shall not end until my death. I shall take no wife, hold no lands, father no children. I shall wear no crowns and win no glory. I shall live and die at my post. I am the sword that burns against the cold, the light that brings the dawn, the horn that wakes the sleepers, the shield that guards the realms of men. I pledge my life and honor to the Night's Watch, for this night and all the nights to come.

The Lord's PrayerOur Father in heaven,
May your name be honored.
May your kingdom come.
May your will be done on earth as it is in heaven.
Give us today our daily bread;
And forgive us our debts, as we ourselves have forgiven our debtors.
And do not lead us into temptation, but deliver us from evil.
For yours is the kingdom, the power, and the glory
Forever, amen.
